ALL TRICKED OUT AND READY TO ROLL.

GearBox is the ultimate toy hauler, loaded with awesome features. The bells and whistles our competitors call optional, we call standard. Some models feature slide-outs, so you have more space to hang with your buddies. Let the good times roll in the one and only GearBox!
The Galley is decked out with a refrigerator, 3-burner range, oven and microwave. A solid surface countertop surrounds the double-bowl sink. It holds twice as many dirty dishes — because who wants dishpan hands?

After you spike your adrenaline on your quad, bike, jet ski or wakeboard, you can chill with a cold one back in your GearBox. The cabinets are sleek, the vibe is cool, and the upholstery is embroidered with the GearBox logo. But this bling can take a beating – it can handle the mud, dusty boots and spilled drinks, and still clean up nice. When it’s time to crash, there’s sleeping space for up to 10 old and new friends, depending on the model.

RIDE. CHILL. CRASH. REPEAT.

The Master Bedroom provides some private shut-eye space with a relaxing queen-size bed. (Bedspread available on select models)

The Full Size Sink is a great place to wash your hands before dinner. The bathroom also features a shower and toilet. Some models include removable wire baskets under the sink.

Rear Bed with Rollover Sofa lets you change your view with your mood. Face the inside of the GearBox, the outside, or the ceiling (when you flatten the sofa to get some sleep).

The Galley smoothly transitions the way so easily reach back.

TO OUR CUSTOMERS...

To make sure that you get the maximum satisfaction out of your recreational vehicle purchase, there are several things you should know:

1. Learn all you can about the travel trailer or fifth wheel you’re planning to buy. Don’t rely on word of mouth. Get the facts about the actual trailer length, width, unloaded weight with options, Gross Vehicle Weight Rating, and Cargo Carrying Capacity. These are usually available in the manufacturer’s sales literature or from the Cargo Carrying Capacity Label located in each trailer. Be sure to check this information before you decide which unit to buy.

2. Verify the towing capacity of your tow vehicle. If you don’t know, or aren’t sure, you can ask at your automotive dealership. Be sure to match its tow rating to the loaded (not dry) weight of your trailer. Include the weight of water, additional accessories, clothing, food, and gear. To help Fleetwood travel trailer customers estimate this total weight, our Gross Vehicle Weight Ratings reflect the maximum weight of the trailer when fully loaded for camping. Be sure the weight of the tow vehicle plus the weight of your trailer do not exceed the Gross Combined Weight Rating of the tow vehicle.

Taking these simple steps before you buy will help ensure that your trailer and tow vehicle combination is just what you wanted.

See you on the trail!
